SUMMARY

Computer Science graduate with hands-on experience in full-stack web development, backend engineering, and cloud technologies. Proficient in building scalable web applications, RESTful APIs, and database-driven systems using modern technologies. Experienced with cloud deployment, Docker, and software engineering best practices. Passionate about designing reliable, high-performance applications and developing efficient solutions to real-world problems.

PROJECTS

Website Vulnerability Scanner (Final Year Project)

- Developed a full-stack web application using FastAPI and React.js.
- Built secure RESTful APIs with authentication and role-based access control.
- Designed an optimized PostgreSQL database schema for efficient data management.
- Applied modular architecture and scalable backend design principles.

E-Commerce Website

- Developed a full-stack e-commerce application using the MERN stack.
 - Implemented secure authentication, RESTful APIs, and CRUD operations.
 - Designed efficient database models for product and order management.
 - Built a scalable application following modern software engineering best practices.
-

WORK EXPERIENCE

Full Stack Developer - SOFTCITY Solutions

Apr 2026 - Present

- Developed and maintained full-stack web applications.
- Built responsive features and integrated backend services.
- Debugged and resolved UI and performance issues.

Web Development Intern - Ataraxy Developers

Feb 2026 - Mar 2026

- Implemented new features following project requirements.
 - Participated in testing, debugging, and feature validation.
 - Collaborated with cross-functional teams throughout the development lifecycle.
-

EDUCATION

COMSATS University Islamabad

Sep 2022 - Jun 2026

Bachelor of Science in Computer Science - CGPA: 3.49/4.00

- Specialized in Software Engineering, Data Structures & Algorithms, and Database Systems.
 - Developed full-stack software projects and applied modern development practices.
 - Strengthened analytical and problem-solving skills through hands-on programming.
-

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, PHP, C++, SQL
- **Frontend:** React.js, Next.js, Vue.js, Angular
- **Backend:** Node.js, Express.js, FastAPI, Laravel
- **Databases:** MongoDB, PostgreSQL, MySQL, Firebase, Supabase
- **Tools & Technologies:** Git, GitHub, Postman, Docker, Linux, REST APIs, AWS (Basics)
