PROFESSIONAL SUMMARY

Full Stack Developer with a BS in Computer Science (CGPA 3.49/4.00) and professional experience building responsive web applications and secure REST APIs. Proficient in React.js, Next.js, Node.js, Express.js, FastAPI, and PostgreSQL, with hands-on knowledge of Docker, Git, GitHub Actions, and AWS fundamentals. Built a full-stack website vulnerability scanner with role-based access control as a final year project. Currently delivering production features at SOFTCITY Solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, PHP, C++, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Responsive Design
- **Backend:** Node.js, Express.js, FastAPI, Laravel, RESTful API Development
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase, Supabase
- **Tools & Technologies:** Git, GitHub, GitHub Actions, CI/CD, Docker, Linux, Postman, AWS

PROFESSIONAL EXPERIENCE

Full Stack Developer | SOFTCITY Solutions **Apr 2026 - Present**

- Develop and maintain full-stack web applications using React.js, Next.js, Node.js.
- Optimize database queries and troubleshoot production issues to improve performance.
- Collaborate with the team to deliver features on schedule through testing and code review.

Web Development Intern | Ataraxy Developers **Feb 2026 - Mar 2026**

- Implemented new web application features per project requirements.
- Tested, debugged, and validated features to ensure quality before release.
- Collaborated with cross-functional teams throughout the development lifecycle.

PROJECTS

Website Vulnerability Scanner (Final Year Project) | FastAPI, React.js, PostgreSQL

- Built a full-stack web application that scans websites for vulnerabilities and presents findings.
- Developed secure REST APIs with token-based authentication and role-based access control.
- Designed an optimized PostgreSQL schema to store scan results, users, and reports.
- Applied a modular backend architecture so new scan modules can be added easily.

E-Commerce Website | MongoDB, Express.js, React.js, Node.js (MERN)

- Developed an e-commerce platform with product catalog, cart, and order management.
- Implemented secure user authentication, RESTful APIs, and complete CRUD operations.
- Designed database models for users, products, and orders for efficient queries.

EDUCATION

COMSATS University Islamabad **Sep 2022 - Jul 2026**

Bachelor of Science in Computer Science - CGPA: 3.49/4.00

- Specialized in Software Engineering, Data Structures & Algorithms, and Database Systems.
- Developed full-stack software projects and applied modern development practices.
- Strengthened analytical and problem-solving skills through hands-on programming.
